## ACKNOWLEDGEMENT

We would like to express our deep sense of gratitude to **AICTE** for granting approval to conduct this Faculty Development Programme (FDP). We extend our sincere thanks to the Management of **IPS Academy, Institute of Business Management and Research, Indore (M.P.)** for their constant support and encouragement in organizing this programme. We are especially thankful to our Director **Dr. Vivek S. Kushwaha** for motivating us and guiding the team throughout the FDP.

Our sincere appreciation goes to all the distinguished Resource Persons who enriched the sessions with their expertise, knowledge, and practical insights. We also acknowledge the dedicated efforts of the FDP Coordinator(s), organizing committee members, technical support staff, and volunteers who contributed significantly to the smooth planning and execution of the programme.

We further extend our heartfelt thanks to all participants for their enthusiastic participation, constructive interactions, and cooperation. Their active involvement played a vital role in making this FDP meaningful, insightful, and successful.

## INSTITUTE'S PROFILE

IPS Academy, Institute of Business Management & Research (IBMR), Indore is one of the prestigious management institutes in Central India. The institute has helped shape careers in business management since its establishment in the year 1994 and has been imparting quality education and practical training. The emphasis is always on cultivating a mindset that helps students become proactive learners and industry-ready. IPS Academy, Institute of Business Management & Research (IBMR), Indore has partnered with prestigious organizations to enhance the teaching-learning processes.

With a focus on developing managerial acumen in its students, IPS Academy, Institute of Business Management & Research (IBMR), Indore has subscribed to real-world case studies and business simulations from Harvard Business Publishing. This global repository of management cases and simulations, developed by stalwarts around the globe, places IPS Academy, Institute of Business Management & Research (IBMR), Indore in the league of a select few institutions in India equipped with the best. The students and faculty members have access to an international LMS – Turnitin – to further their research endeavours. The institute also subscribes to print editions of The Times of India, Business Standard and The Economic Times for all faculty members, helping them stay updated on world affairs and bring diverse perspectives into the classroom.

The management students at IPS Academy, Institute of Business Management & Research (IBMR), Indore are provided online access to Business Standard's BS Insights, a mobile app that offers curated content on the latest economic, social and technology insights, trending management cases, and relevant online learning resources.

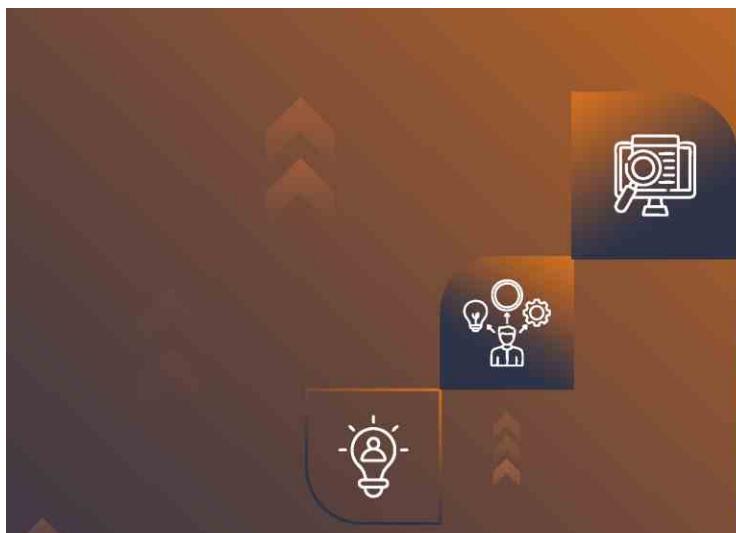

The course content, teaching pedagogy and amalgamation of traditional and digital mediums add to the legacy of IPS Academy and IBMR in particular, and personify the core values of the IPS Academy family: Knowledge, Skill and Values.

IPS Academy, Institute of Business Management & Research (IBMR), Indore is a NAAC A++ accredited institute and has been consistently ranked among the top 50 institutes in India by leading business magazines..

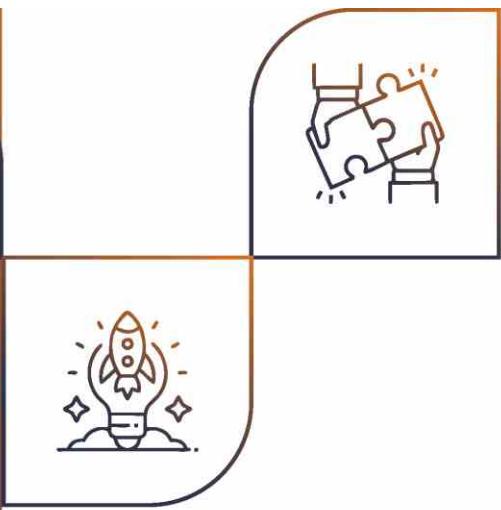

## PROGRAM OVERVIEW

The Entrepreneurship and Startup Ecosystem Faculty Development Program (FDP) seeks to empower academic faculty members with the skills, knowledge and attitude required to promote innovation, an entrepreneurial mindset, and a startup culture within their institution. The program will discuss the role of entrepreneurship in education, learn about the startup ecosystem, and empower faculty members with the ability to incorporate these concepts into teaching, research and engagement with students and industries.

## PROGRAM STRUCTURE

- Overview of entrepreneurship
- The startup ecosystem and key players - incubators, accelerators, angel investors.
- Creating an entrepreneurial culture in academia and role of academic institutions in fostering startups.
- Integrating entrepreneurship into the curriculum and strategies for incorporating entrepreneurship education into traditional academic disciplines (engineering, humanities, science, etc.).
- Project-based learning and entrepreneurship. Role of hands-on, project-based learning in fostering entrepreneurial skills among students. Case studies of successful project-based initiatives.
- Entrepreneurship through research, innovation and best practices. How to align academic research with entrepreneurial ventures and encourage faculty-student collaboration for commercialising research.
- Building Industry - Academia Partnerships: Strategies to build strong collaborations with industry players (corporates, investors, startup founders) to create opportunities for students and faculty.
- Funding Startups: Understanding the investment landscape. Introduction to funding options for startups, including venture capital, angel investors, crowdfunding and government schemes.
- Incubators and Accelerators in Academia: Building a sustainable startup. Overview of startup incubators and accelerators, their role in supporting early-stage ventures, and how academic institutions can establish them.
- National Education Policy (NEP) 2020 Implementation.

## PROGRAM OBJECTIVES

- Equip faculty members with the necessary skills and knowledge to create a thriving entrepreneurship ecosystem in their respective academic institutions.
- Provide faculty members with a clear understanding of the concepts of entrepreneurship, innovation, and the dynamics of the startup ecosystem.
- Encourage faculty members to adopt an entrepreneurial mindset that can be passed on to students through teaching, mentoring and research.
- Enable faculty to collaborate across departments to foster innovation and create an environment conducive to new ideas, ventures and startups.
- Strengthen the link between academic research and practical industry applications by encouraging startup culture in academic environments.
- Help faculty understand the requirements of startup incubation, funding, scaling, and how to build support networks for startup ventures.
- By providing faculty members with a strong foundation in entrepreneurship and the startup ecosystem, the program will be critical in developing the next generation of entrepreneurs and innovators.

## LEARNING OUTCOMES

- The faculty will develop a deeper understanding of the entrepreneurial ecosystem and how it can be infused into academia.
- Greater capacity of the faculty to mentor, advise and assist students pursuing entrepreneurship and startup initiatives.
- Formulation of a plan for initiating or enhancing entrepreneurship programs and partnerships in their own institutions.
- Enhanced partnerships between academia and the wider startup ecosystem, with an emphasis on culture of innovation and research commercialisation.

## INFORMATION FOR THE PARTICIPANTS

- No registration fee for the participants.
- The FDP is open to Associate Professors, Assistant Professors, Ph.D. scholars & PG students.
- Registration will be done on <https://atalacademy.aicte-india.org/login>
- Once the registration is confirmed, the participants will be informed through mail.
- Max. 50 participants will be invited to participate in FDP and the selection will be on a first come first serve basis.
- FDP will be conducted in physical mode.
- At least 1-2 industrial visit/ visits to nearby Institute of National Importance/ IoE/ Prominent multidisciplinary university/ CSIR or DST labs/ Training Institute/ Incubation centres/ MSME centres/ Studios/ Smart classroom facilities, etc.

Mr. Sharma is known for his client-centric approach, transparent practices, and his ability to guide investors with clarity and confidence.

**Mr. Mohit Jain****Entrepreneur, Co-Founder and CEO****Kimirica Hunter International LLP**

Mr. Mohit Jain is the Co-founder and CEO of Kimirica Hunter International LLP, a globally recognized luxury hotel amenities brand serving leading hotel chains across more than 30 countries. He transformed a modest startup into a large-scale enterprise by focusing on innovation, sustainability, and premium design. Under his leadership, Kimirica expanded into plant-based skincare, natural fragrances, and luxury lifestyle products, while also establishing a strategic joint venture with Hunter Amenities, Canada. He is also the Co-founder of Pataa, a digital addressing platform adopted by Indore Smart City, reflecting his commitment to technology-driven and self-reliant entrepreneurship.

**Mr. Pushpendra Agrawal****Entrepreneur and Founder****Walkover Web Solutions Ltd.**

Mr. Pushpendra Agrawal is an entrepreneur and the Founder of Walkover Web Solutions Ltd., a leading technology company based in Indore. He is the creator of MSG91, a widely used business communication and messaging platform across India. With strong expertise in software development, SaaS products, and scalable digital solutions, he has successfully built technology platforms with nationwide impact. Mr. Agrawal is known for his innovative thinking, practical leadership, and active contribution to the startup and technology ecosystem.

**Mr. Tanutejas Saraswat****Entrepreneur**

Mr. Tanutejas Saraswat is the Founder of a prominent B2B retail-tech startup

based in Indore, aimed at empowering traditional kirana stores through technology. His platform enables small retailers to directly connect with brands, streamline inventory management, and improve supply chain efficiency. Under his leadership, his venture has expanded across multiple cities and emerged as a key player in India's retail-tech landscape.

He is widely appreciated for his deep understanding of grassroots retail challenges and his commitment to modernizing India's unorganized retail sector.

## FDP SCHEDULE

<b>Date</b>	<b>Time</b>	<b>Name</b>	<b>Designation</b>	<b>Topic</b>
8/12/25 Monday	9:00 A.M - 9:30 A.M	Dr. Vivek Singh Kushwaha	Director, IPS Academy, IBMR, Indore	<b>Inaugural Ceremony</b>
	9:30 A.M - 12 Noon	Prof Shaibal Mukherjee	Professor IIT Indore, Director and Cofounder QuanTech L2M	<b>Project Based Learning in Entrepreneurship (Case Studies)</b>
	2:00 P.M- 4:30 P.M	Dr. Atul Bharat	Group Director (CDC) Acropolis Group of Institutions, Indore	<b>Integrating Entrepreneurship in Curriculum</b>
9/12/25 Tuesday	9:30 A.M - 12 Noon	Mr. Tanutejas Saraswat	Entrepreneur	<b>Startup and Innovation</b>
	2:00 P.M- 4:30 P.M	Mr. Pushpendra Agrawal	Founder, Walkover Web Solutions Ltd	<b>Entrepreneurial Culture in Academia</b>
10/12/25 Wednesday	9:30 A.M - 12 Noon	Prof. Thillai Rajan	Professor IIT Madras, Cofounder YNOS Venture Engine	<b>Building Industry Academia Partnership</b>
	2:00 P.M- 4:30 P.M	Prof. Shaibal Mukherjee	Professor IIT Indore, Director and Cofounder QuanTech L2M	<b>Entrepreneurship through Research, Innovation and Best Practices</b>
11/12/25 Thursday	9:30 A.M - 12 Noon	FDP Team	IPSA, IBMR, Indore	<b>Article Discussion Summary and Presentation</b>
	2:00 P.M- 4:30 P.M	Prof G. S. Murthy	Professor IIT Indore, National Coordinator IKS Division, MOE, GOI	<b>Indian Knowledge System and NEP</b>
12/12/25 Friday	9:30 A.M - 12 Noon	Industry Visit	IIT Indore	
	2:00 P.M- 4:30 P.M	Mr. Mohit Jain	Cofounder and CEO KimiRica Hunter International LLP	<b>Overview of Entrepreneurship</b>
13/12/25 Saturday	9:30 A.M - 12 Noon	Mr. Vipin Sharma	Cofounder Veracity World, Coldwell Banker	<b>Startup Ecosystem</b>
	2:00 P.M- 4:30 P.M	Mr. Vipin Sharma	Cofounder Veracity World, Coldwell Banker	<b>Funding Startups</b>
	4:30 P.M – 05:30 P.M	Dr. Vivek Singh Kushwaha	Director, IPS Academy, IBMR, Indore	<b>Valedictory Ceremony</b>

## **INAUGURAL SESSION**

**08 December, 2025**

**Guest: Dr. Shaibal Mukherjee**

Professor, IIT Indore

Director, Mentor and Cofounder, QuanTech L2M Innovations Pvt. Ltd.

The Faculty Development Program commenced with an inspiring **inaugural session** that set the tone for a week of learning, innovation, and meaningful deliberations focused on promoting entrepreneurship and strengthening the startup ecosystem within academia. The inaugural address was delivered by Dr. Vivek Singh Kushwaha, Director, IPS Academy, Institute of Business Management & Research, Indore, M.P.

### **Objectives of the FDP**

- Equip faculty members with the necessary skills and knowledge to create a thriving entrepreneurship ecosystem in their respective academic institutions.
- Provide faculty members with a clear understanding of the concepts of entrepreneurship, innovation, and the dynamics of the startup ecosystem.
- Encourage faculty members to adopt an entrepreneurial mindset that can be passed on to students through teaching, mentoring, and research.
- Enable faculty to collaborate across departments to foster innovation and create an environment conducive to new ideas, ventures, and startups.
- Strengthen the link between academic research and practical industry applications by encouraging startup culture in academic environments.
- Help faculty understand the requirements of startup incubation, funding, scaling, and how to build support networks for startup ventures.
- By providing faculty members with a strong foundation in entrepreneurship and the startup ecosystem, the program will be critical in developing the next generation of entrepreneurs and innovators.

### **Program Structure:**

- Overview of Entrepreneurship
- The Startup Ecosystem and key players- incubators, accelerators, angel investors.
- Creating an Entrepreneurial Culture in Academia and role of academic institutions in fostering startups.
- Integrating Entrepreneurship into the Curriculum and Strategies for incorporating entrepreneurship education into traditional academic disciplines (engineering, humanities, science, etc.).
- Project-Based Learning and Entrepreneurship. Role of hands-on, project-based learning in fostering entrepreneurial skills among students. Case studies of successful project-based initiatives.
- Entrepreneurship through Research, Innovation and Best Practices. How to align academic research with entrepreneurial ventures and encourage faculty-student collaboration for commercializing research
- Building Industry-Academia Partnerships. Strategies to build strong collaborations with industry players (corporates, investors, startup founders) to create opportunities for students and faculty.
- Funding Startups: Understanding the Investment Landscape. Introduction to funding options for startups, including venture capital, angel investors, crowdfunding, and government schemes.
- Building Industry-Academia Partnerships. Strategies to build strong collaborations with industry players (corporates, investors, startup founders) to create opportunities for students and faculty.
- Incubators and Accelerators in Academia. Building a Sustainable Startup. Overview of startup incubators and accelerators, their role in supporting early-stage ventures, and how academic institutions can establish them.
- Indian Knowledge System and National Education Policy (NEP) 2020 Implementation

## **Key Learnings**

- The faculty developed a deeper understanding of the entrepreneurial ecosystem and how it can be infused into academia.
- Greater capacity of the faculty to mentor, advise, and assist students pursuing entrepreneurship and startup initiatives.
- Formulation of a plan for initiating or enhancing entrepreneurship programs and partnerships in their own institutions.
- Enhanced partnerships between academia and the wider startup ecosystem, with an emphasis on culture of innovation and research commercialization.

## **REPORT ON SESSIONS**

### **Session: I**

**Date: December 08, 2025**

**Time: 09.30 AM to 12.00 Noon**

**Topic: Project Based Learning in Entrepreneurship (Case Studies)**

**Resource Person Name: Prof. Shaibal Mukherjee**

**Affiliation, Designation: Professor, IIT Indore. Adjunct faculty RMIT Melbourne, Australia. Co-founder QuanTech L2M Pvt. Ltd.**

### **Session Overview**

The session focused on how project-based learning (PBL) can effectively foster entrepreneurial thinking by integrating interdisciplinary research, innovation, and commercialization through real-world case studies.

### **Detailed Description**

Prof. Mukherjee emphasized that entrepreneurship education must move beyond theoretical instruction and adopt a hands-on, problem-solving approach. Drawing from the examples from his own Entrepreneurial Venture, he highlighted the role of interdisciplinary research, particularly in addressing sustainability challenges across agriculture, healthcare, and environmental domains.

The session introduced participants to quantum-scale and nanotechnology innovations, explaining how laboratory-based research can be transformed into viable commercial products. Prof. Mukherjee stressed that entrepreneurial projects begin with imagination, observation, and curiosity, which later evolve into innovative applications.

He elaborated on the role of sensor technologies—optical, resistive, and capacitive sensors—and their practical applications in agriculture and healthcare. A key case study discussed was the AI-enabled Smart Soil Health Monitoring System, which assists farmers in fertilizer optimization, soil productivity enhancement, and early disease detection using image processing.

By linking technological research with real-life societal problems, Prof. Mukherjee demonstrated how project-based learning encourages students to think like entrepreneurs, from ideation to product development and commercialization.

### Key Learnings

- Project-based learning bridges the gap between research and entrepreneurship.
- Interdisciplinary collaboration is essential for sustainable innovation.
- Nanotechnology and sensor-based projects offer scalable entrepreneurial opportunities.
- Case studies help students understand the journey from lab research to market-ready products.

### Conclusion

The session effectively demonstrated that entrepreneurship education thrives when learning is project-driven, research-oriented, and problem-focused. By integrating real-life case studies into the curriculum, educators can nurture innovation, creativity, and entrepreneurial mindset among students.

## **Session: II**

**Date: December 08, 2025**

**Time: 2:00 PM to 4.30 PM**

**Topic: Integrating Entrepreneurship in Curriculum**

**Resource Person Name: Dr. Atul Bharat**

**Affiliation, Designation: Group Director at Acropolis Group of Institutions, Indore**

### **Session Overview**

This session addressed the importance of embedding entrepreneurship across academic curricula, emphasizing that entrepreneurial skills are essential not only for business students but for all disciplines.

### **Detailed Description**

Dr. Bharat strongly advocated empowering students with the freedom to question “Why?”, stating that inquisitiveness is the first step toward innovation. He explained that nurturing entrepreneurial skills requires a shift from conventional teaching methods to experiential and student-centric pedagogies. Real-life examples were shared to illustrate how entrepreneurial thinking can be embedded into everyday teaching practices.

The session provided a comprehensive overview of multiple frameworks that support entrepreneurship integration, including the **Effectuation Model, Business Model Canvas, and Design Thinking** methodology. Dr. Bharat elaborated on how these tools can be used in classrooms to help students understand opportunity identification, resource optimization, risk assessment, and customer-centric innovation. He emphasized contextualizing learning through Indian life cases and local problems, making education more relatable and impactful.

Additionally, Dr. Bharat encouraged faculty members to assign students the task of developing their own entrepreneurial case studies, identifying challenges, and proposing feasible solutions. Such practices, he noted, help break rigid mindsets and foster creativity, collaboration, and independent thinking.

### **Key Learnings**

- Entrepreneurship can be integrated into any subject through innovative pedagogy.

- Effectuation and design thinking enhance experiential learning.
- Real-life cases make learning relevant and engaging.
- Student-centered learning fosters entrepreneurial competencies.

## **Conclusion**

The session reinforced that curriculum integration is central to developing entrepreneurial graduates. By transforming teaching methodologies and encouraging experiential learning, educators can embed entrepreneurship as a core academic value.

## **Pictures of the session**

**Session: III**

**Date: December 09, 2025**

**Time: 09.30 AM to 12.00 Noon**

**Topic: Startup and Innovation**

**Resource Person Name: Mr. Tanutejas Saraswat**

**Affiliation, Designation: Entrepreneur**

### **Session Overview**

This session provided participants with a practical, ground-level understanding of startups and innovation through the lived experiences of Mr. Tanutejas Saraswat. He began by sharing his entrepreneurial journey in the retail sector, offering valuable insights into the realities of building and sustaining a business.

### **Detailed Description**

Mr. Saraswat emphasized that successful startups are born from real-life problems and that entrepreneurs must develop the habit of observing everyday challenges. He highlighted the importance of adopting a customer-centric approach, treating customers as key stakeholders whose perspectives shape business decisions, particularly in the highly competitive grocery and FMCG sectors.

The session addressed critical operational aspects of entrepreneurship, including market understanding, supply chain management, inventory control, and customer service. Mr. Saraswat highlighted that while financial capital is necessary, entrepreneurial success ultimately depends on sound financial management and sustainable profitability.

Furthermore, the session explored how academic institutions can foster innovation by exposing students to market research techniques, problem validation processes, and industry collaboration. Mr. Saraswat stressed the role of industry-academia co-creation in building a robust entrepreneurial ecosystem.

### **Key Learnings**

- Innovation starts with identifying real-life problems.
- Customer-centric thinking is vital for startup success.

- Financial discipline is as important as creativity.
- Industry-academia collaboration accelerates innovation.

## Conclusion

The session emphasized that entrepreneurship is a continuous learning journey, where innovation, adaptability, and customer focus define success.

### Pictures of the session:

**Session: IV**

**Date: December 09, 2025**

**Time: 2 PM to 4.30 PM**

**Topic: Entrepreneurial Culture in Academia**

**Resource Person Name: Mr. Pushpendra Agrawal**

**Affiliation, Designation: Entrepreneur and Founder Walkover Web Solutions Ltd.**

### **Session Overview**

This session highlighted the role of entrepreneurial culture within academic institutions to prepare students for real-world challenges.

### **Detailed Description**

Mr. Pushpendra Agrawal's session emphasized the importance of cultivating an **entrepreneurial culture within academic institutions**. He shared his personal entrepreneurial journey, including international exposure, early struggles, failures, and eventual success, providing participants with authentic insights into the entrepreneurial mindset.

He discussed the structure and functioning of startups, including market strategies, social networking, automation, and the integration of AI in business operations. Through real-life examples from his organization, Mr. Agrawal demonstrated how technology can streamline processes and enhance decision-making.

A significant portion of the session focused on academic practices that promote entrepreneurship, such as startup simulations, biographical studies of entrepreneurs, and classroom activities that encourage strategic thinking. He stressed the need to develop **mental models for decision-making**, enabling students to evaluate options and make informed choices.

### **Key Learnings**

- Entrepreneurial culture must be embedded in academic practices.
- Practical exposure builds confidence and decision-making ability.
- Technology and AI are integral to modern entrepreneurship.

## Conclusion

The session reinforced that academia must function as an entrepreneurial ecosystem, enabling students to think independently, innovate, and take calculated risks.

### Pictures of the session:

**Session: V**

**Date: December 10, 2025**

**Time: 09.30 AM to 12.00 Noon**

**Topic: Building Industry Academia Partnership**

**Resource Person Name: Prof. Dr. A. Thillai Rajan**

**Affiliation, Designation: Professor, IIT Madras. Associate: Harvard Kennedy School, Co-founder YNOS Venture Engine.**

### **Session Overview**

The session explored the strategic importance of industry-academia collaboration in enhancing teaching, research, and employability.

### **Detailed Description**

Prof. Rajan's session provided an in-depth understanding of the **strategic importance of industry-academia collaboration**. He emphasized that teaching, research, and industry engagement are interdependent and collectively shape the quality of higher education.

He highlighted that industry partnerships help academic institutions stay aligned with evolving market needs, thereby enhancing student employability. According to Prof. Rajan, research and industry exposure enable faculty members to deliver high-quality, relevant classroom instruction.

The session also stressed the importance of internships, industry visits, and collaborative research projects in preparing students for professional environments. Prof. Rajan concluded that sustainable academic excellence depends on **continuous engagement with industry**.

### **Key Learnings**

- Industry collaboration enriches academic outcomes.
- Research-driven teaching improves student engagement.
- Internships bridge skill gaps between academia and industry.

## Conclusion

The session concluded that strong industry-academia partnerships are essential for creating future-ready graduates and relevant educational institutions.

### Pictures of the session:

**Session: VI**

**Date: December 10, 2025**

**Time: 2 PM to 4.30 PM**

**Topic: Entrepreneurship through Research, Innovation and Best Practices**

**Resource Person Name: Dr. Prof. Shaibal Mukherjee**

**Affiliation, Designation: Professor, IIT Indore. Adjunct faculty RMIT Melbourne, Australia. Co-founder QuanTech L2M Pvt. Ltd.**

### **Session Overview**

This advanced session built upon the earlier discussions by highlighting how research-driven innovation can be effectively transformed into entrepreneurial ventures. Prof. Shaibal Mukherjee aligned the deliberations with national innovation policies and government initiatives supporting startups, thereby providing participants with a broader policy and ecosystem perspective.

### **Detailed Description**

This advanced session expanded on earlier discussions by demonstrating how **research-driven innovation can lead to entrepreneurial ventures**. Prof. Mukherjee aligned the session with national innovation policies and government initiatives supporting startups.

Ph.D. scholars presented real-time case studies on sensor-based products, gas detection technologies, and agricultural innovations. These examples showcased the journey from laboratory research to field testing and commercialization.

The session underscored the importance of **IoT, AI, and interdisciplinary collaboration** in creating scalable and impactful startups. Prof. Mukherjee reiterated that research excellence, when combined with entrepreneurial vision, leads to sustainable innovation.

### **Key Learnings**

- Research-based entrepreneurship creates sustainable startups.
- Technology labs play a crucial role in innovation.
- Field testing and real-time data are essential for product validation.

## Conclusion

The session reinforced that **research excellence combined with entrepreneurial intent leads to impactful innovation.**

**Pictures of the Products and Prototypes that are ready for mass commercialization:**

**Agricultural Sensor:** This advanced Agriculture sensor is tailored to measure the concentrations of Nitrogen, Phosphorus, Potassium, pH, Soil Moisture, Temperature and Electroconductivity (EC) in your soil. With these key insights, you can optimize nutrient levels for healthier crops and more sustainable agriculture practices.

**Bio Sensor:** Elevate safety with our cutting-edge technology Bio Sensor, accurately detecting various biomarkers such as uric acid, cholesterol, adenine and creatinine levels in the blood with precision and efficiency.

**Pictures of the session:**

**Session: VII**

**Date: December 11, 2025**

**Time: 2 PM to 4.30 PM**

**Topic: Indian Knowledge System and NEP**

**Resource Person Name: Dr. G.S. Murthy**

**Affiliation, Designation: Professor, IIT Indore, National Coordinator IKS Division,**

**Ministry of Education, GOI**

### **Session Overview**

This session provided an in-depth understanding of the Indian Knowledge System (IKS) and its alignment with the National Education Policy (NEP), highlighting its relevance in contemporary education. Prof. G. S. Murthy offered a holistic perspective on IKS by integrating philosophical thought, traditional wisdom, and modern research methodologies. The session aimed to sensitize educators to the importance of preserving and revitalizing indigenous knowledge systems while embedding them meaningfully into mainstream academic frameworks.

### **Detailed Description**

Prof. Murthy began the session by introducing the conceptual foundations of the Indian Knowledge System, explaining how India's traditional wisdom encompasses diverse domains such as science, mathematics, medicine, philosophy, arts, and governance. He emphasized that IKS is not merely historical knowledge but a living, evolving system that continues to offer solutions to contemporary challenges.

The discussion was closely aligned with the objectives of the National Education Policy, which advocates the integration of indigenous knowledge into teaching, learning, and research. Prof. Murthy elaborated on various **knowledge acquisition methodologies** within IKS, including first-person, second-person, and third-person inquiry, and explained their relevance in developing holistic understanding and experiential learning.

A significant part of the session focused on addressing the **challenge of pseudoscience**, emphasizing the need for rigorous research, validation, and critical inquiry in the study of IKS.

Prof. Murthy highlighted the importance of preserving the **uniqueness of IKS** through cultural and philosophical frameworks, including concepts such as the goals of life, cyclical understanding of time, and ethical dimensions of knowledge.

The session also touched upon intellectual property rights, research ethics, and the role of education in safeguarding and disseminating indigenous wisdom in a scientifically robust manner.

### **Key Learnings**

- Indian Knowledge System provides a holistic and value-based approach to education.
- NEP supports the integration of indigenous knowledge into modern curricula.
- Rigorous research methodologies are essential to distinguish authentic knowledge from pseudoscience.
- Preserving cultural and philosophical uniqueness strengthens educational identity and relevance.

### **Conclusion**

The session concluded with a strong message that **integrating IKS into mainstream education is essential for creating holistic, ethical, and value-driven learning systems**. Prof. Murthy reinforced that educators play a pivotal role in preserving indigenous wisdom while adapting it to contemporary academic and societal needs.

### **Pictures of the session:**

**Session: VIII**

**Date: December 12, 2025**

**Time: 2 PM to 4.30 PM**

**Topic: Overview of Entrepreneurship**

**Resource Person Name: Mr. Mohit Jain**

**Affiliation, Designation: Entrepreneur, Co-founder & CEO – Kimirica Hunter International LLP**

### **Session Overview**

This session focused on providing a practical and inspirational overview of entrepreneurship through the **real-life entrepreneurial journey** of Mr. Mohit Jain, Co-founder and CEO of Kimirica. The session aimed to motivate educators to understand entrepreneurship as a mindset shaped by resilience, innovation, ethical practices, and continuous learning, rather than merely a business activity.

### **Detailed Description**

Mr. Jain shared his entrepreneurial journey, tracing the evolution of Kimirica from a modest startup to a globally recognized enterprise. He highlighted key milestones in the company's growth, including product development, market expansion, and international presence. Through candid reflections, he discussed challenges faced during different phases of the business, including market competition and the unprecedented impact of the COVID-19 pandemic.

The session emphasized that failures and setbacks are integral to the entrepreneurial process and serve as powerful learning opportunities. Mr. Jain elaborated on how resilience, adaptability, and strategic thinking enabled his organization to navigate crises and emerge stronger. He also underscored the importance of **integrity, ethical practices, and trust-building** in sustaining long-term business success.

Additionally, the session highlighted the significance of **innovation, networking, and continuous learning** as core entrepreneurial values. Mr. Jain encouraged educators to instil

these values in students by exposing them to real-world business challenges, experiential learning opportunities, and role models from the entrepreneurial ecosystem.

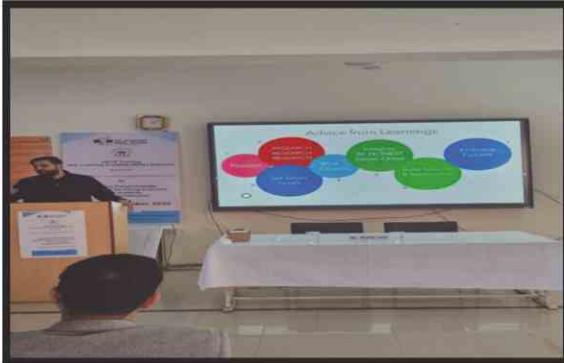

### Key Learnings

- Entrepreneurship is a mindset developed through experience, resilience, and learning.
- Failures and challenges provide valuable lessons for long-term success.
- Integrity, innovation, and networking are critical for sustainable entrepreneurship.
- Educators play a key role in nurturing entrepreneurial thinking among students.

### Conclusion

The session concluded by inspiring participants to **promote an entrepreneurial mindset within academic environments**. Mr. Jain reinforced that by encouraging innovation, ethical practices, and lifelong learning, educators can prepare students to become confident, responsible, and resilient entrepreneurs capable of thriving in a dynamic global ecosystem.

### Pictures of the session:

**Session: IX**

**Date: December 12, 2025**

**Time: 09:30 AM to 12 Noon**

**Topic: Startup Ecosystem**

**Resource Person Name: Mr. Vipin Sharma**

**Affiliation, Designation: Entrepreneur, Coldwell Banker and Cofounder Veracity World**

### **Session Overview**

This session focused on understanding the startup ecosystem and the crucial role played by individuals, institutions, educators, and continuous self-development in nurturing entrepreneurial environments. The discussion emphasized how mindset transformation and educator empowerment collectively contribute to building a sustainable and inclusive startup ecosystem.

### **Detailed Description**

Mr. Vipin Sharma initiated the session by engaging participants in a series of interactive and reflective activities designed to encourage self-awareness, clarity of purpose, and openness to learning. These activities helped participants understand that a robust startup ecosystem begins with individuals who are mentally prepared to adapt, innovate, and continuously evolve.

He elaborated that startup ecosystems are not limited to infrastructure such as incubators, accelerators, or funding agencies, but are deeply rooted in human capital, attitudes, and lifelong learning practices. Mr. Sharma emphasized that self-investment—through skill enhancement, knowledge acquisition, and mindset development—is the foundation upon which entrepreneurial ecosystems flourish.

Drawing from his personal entrepreneurial journey, Mr. Sharma explained how grassroots exposure, real-world engagement, and staying connected to ground realities strengthen an entrepreneur's ability to identify opportunities and respond to challenges effectively. He stressed that research-oriented thinking plays a vital role in ecosystem development, as it enables entrepreneurs to validate ideas, understand markets, and make informed decisions.

The session also highlighted the role of educators as ecosystem builders. Mr. Sharma emphasized that educators act as mentors, facilitators, and role models who influence students'

entrepreneurial aspirations. By encouraging curiosity, resilience, and problem-solving, educators can create a culture that supports innovation, collaboration, and startup growth within academic institutions.

### **Key Learnings**

- A strong startup ecosystem is built on mindset, skills, and continuous learning.
- Self-investment and adaptability are essential for entrepreneurial success.
- Research-driven thinking strengthens opportunity identification and innovation.
- Educators play a pivotal role in nurturing and sustaining startup ecosystems.

### **Conclusion**

The session concluded by reinforcing that startup ecosystems thrive when individuals and institutions prioritize mindset development and lifelong learning. Empowered educators and self-motivated learners together act as catalysts for creating vibrant and sustainable entrepreneurial ecosystems.

**Session: X**

**Date: December 12, 2025**

**Time: 02:00 PM to 04:30 PM**

**Topic: Funding Startups**

**Resource Person Name: Mr. Vipin Sharma**

**Affiliation, Designation: Entrepreneur, Coldwell Banker and Cofounder Veracity World**

### **Session Overview**

This session focused on the importance of financial preparedness, strategic thinking, and informed decision-making in the context of funding startups. It emphasized that funding is not merely about raising capital but about building credibility, clarity, and long-term sustainability.

### **Detailed Description**

Mr. Vipin Sharma began the session by highlighting that funding is a means to scale ideas, not a substitute for vision, discipline, or research. He emphasized that entrepreneurs must first invest in themselves by developing knowledge, skills, and clarity before seeking external funding.

Through reflective discussions, he explained that successful funding journeys are rooted in deep research and preparation. Entrepreneurs who understand their business model, market dynamics, and value proposition are better equipped to engage with investors, lenders, and financial institutions. Research enables entrepreneurs to make realistic projections, assess risks, and communicate their ideas convincingly.

Mr. Sharma also emphasized the importance of self-discipline and resilience in managing funds. He explained that funding brings responsibility and accountability, and entrepreneurs must demonstrate ethical practices, financial prudence, and long-term commitment. Staying grounded and connected to operational realities ensures that financial resources are utilized effectively.

Additionally, the session highlighted the role of educators in preparing students to understand funding mechanisms such as bootstrapping, angel investment, venture capital, and institutional funding. By instilling financial literacy and decision-making skills, educators can help students approach funding with confidence and responsibility.

## Key Learnings

- Funding is an enabler, not the starting point, of entrepreneurship.
- Research and preparation strengthen funding readiness and credibility.
- Financial discipline and ethical practices are critical for sustainable growth.
- Educators play a key role in developing funding awareness and financial literacy.

## Conclusion

The session concluded by emphasizing that successful funding outcomes depend on strong foundations of self-investment, research, and disciplined execution. When entrepreneurs are well-prepared and educators are empowered to guide them, funding becomes a strategic tool for sustainable startup growth rather than a challenge.

### Pictures of the Sessions:

## **REPORT ON HANDS-ON EXERCISES**

### **Exercise/Activity: Business Model Canvas**

**OBJECTIVES:** To empower participants to translate theoretical concepts into actionable business insights using practical tools and techniques shared during the session.

**SKILLS LEARNED/PRACTICED:** The Hands-on Training session focused on the Business Model framework, enabling participants to understand and apply essential components for practical entrepreneurial decision-making. Key outcomes included learning to frame business scenarios, recognize the interconnectivity of business elements, and visualize integrated Business Models. Using a caselet on a Paddy Farming Company, participants gained practical experience in identifying value propositions, customer segments, operations, revenue mechanisms, and resource alignment. This exercise enhanced analytical and strategic thinking, supporting the translation of concepts into actionable business insights.

### **KEY LEARNINGS:**

1. Learned the structure and components of a Business Model.
2. Understood how to frame and analyze a business scenario.
3. Identified the interconnectivity among all business elements.
4. Improved skills in visualizing and mapping a Business Model.
5. Practically applied concepts through a caselet on a Paddy Farming Company.
6. Enhanced ability to interpret business insights and identify improvement areas.

### **Exercise/Activity: Scamper**

**OBJECTIVES:** To enable participants to apply SCAMPER to a random case scenario and develop innovative solutions.

**SKILLS LEARNED/PRACTICED:** Participants practiced core innovation and problem-solving skills by applying the SCAMPER method to a randomly assigned case. The activity enabled them to critically examine existing processes, question assumptions, and generate

alternative solutions by substituting, combining, adapting, modifying, putting to other uses, eliminating, and rearranging elements. Through teamwork, they strengthened communication, ideation, and decision-making capabilities, leading to structured and creative outcomes.

#### **KEY LEARNINGS:**

1. Gained practical understanding of the SCAMPER framework and its applications.
2. Learned how to generate creative alternatives by systematically modifying existing ideas.
3. Understood the importance of team collaboration in innovation-oriented tasks.
4. Developed the ability to convert creative concepts into feasible solutions.
5. Enhanced critical thinking by applying the SCAMPER prompts to real-time problem scenarios.

#### **Exercise/Activity: Slack**

**OBJECTIVES:** Enable participants to gain hands-on experience using Slack as a professional communication and collaboration tool. The exercise aimed to help participants effectively use Slack features for messaging, information sharing, and coordination in a simulated work environment.

**SKILLS LEARNED/PRACTICED:** Participants practiced essential digital communication and collaboration skills through hands-on use of Slack. The exercise helped them navigate channels and direct messages effectively, use threads to keep conversations organized, and share files, links, and updates in a clear and professional manner. They also practiced real-time collaboration, quick coordination, and appropriate communication etiquette while working on assigned tasks, enhancing their ability to use Slack as a productive workplace messaging and communication tool.

## **KEY LEARNINGS:**

1. Gained practical understanding of Slack's core features and interface
2. Learned how structured communication improves clarity and reduces information overload
3. Understood the importance of using channels and threads for organized collaboration
4. Developed confidence in using Slack for team coordination and quick decision-making
5. Recognized Slack's role in enhancing productivity and reducing reliance on emails

## **Exercise/Activity: Wordpress**

**OBJECTIVES:** To provide an understanding of the basic architecture and working of WordPress.

**SKILLS LEARNED/PRACTICED:** Participants practiced core innovation and problem-solving skills by applying the SCAMPER method to a randomly assigned case. The activity enabled them to critically examine existing processes, question assumptions, and generate alternative solutions by substituting, combining, adapting, modifying, putting to other uses, eliminating, and rearranging elements. Through teamwork, they strengthened communication, ideation, and decision-making capabilities, leading to structured and creative outcomes.

## **KEY LEARNINGS:**

1. Gained practical understanding of the SCAMPER framework and its applications.
2. Learned how to generate creative alternatives by systematically modifying existing ideas.
3. Understood the importance of team collaboration in innovation-oriented tasks.
4. Developed the ability to convert creative concepts into feasible solutions.
5. Enhanced critical thinking by applying the SCAMPER prompts to real-time problem scenarios.

## **Exercise/Activity: Wordpress with AI**

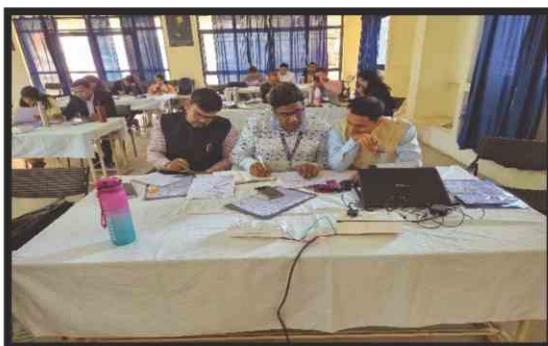

**OBJECTIVES:** To explore the application of WordPress AI tools.

**SKILLS LEARNED/PRACTICED:** Participants developed skills in using AI tools for content creation, layout planning, and website management. The session enhanced their ability to integrate AI solutions to improve productivity, content quality, and digital presence.

### **KEY LEARNINGS:**

1. Understood the concept of AI integration in WordPress.
2. Learned to apply AI for content creation and website setup.
3. Recognized the efficiency gains offered by AI-assisted web development.
4. Identified the relevance of WordPress AI for educational and professional use.

### **Pictures of the Sessions:**

## **REPORT ON ARTICLE DISCUSSION**

**Article Title:** Startup founders: university's role and entrepreneur's intention–action gap in emerging markets

**Source:** Ribeiro, A. T. V. B., Costa, L. dos S., Borini, F. M., & Cahen, F. R. (2025). Startup founders: University's role and entrepreneur's intention–action gap in emerging markets. *Journal of Entrepreneurship in Emerging Economies*, 17(2), 239–259.

<https://doi.org/10.1108/JEEE-12-2022-0383>

**OBJECTIVE:** The study investigates how universities influence the intention–action gap (IAG) — the delay between students' entrepreneurial intentions and their actual startup creation — focusing on successful founders in Brazil (an emerging market).

### **KEY FINDINGS:**

Extracurricular activities & exchange programs → reduce the IAG (students act faster on entrepreneurial intentions).

Studying in major economic centres → extends the IAG (paradoxically delays startup creation).

Computer science & industrial engineering graduates → shorter IAG (STEM advantage).

Studying with future co-founders → reduces IAG (peer networks matter).

### Practical Implications for Universities

- Invest in student-led organizations (junior enterprises, clubs, societies).
- Promote international exchange programs to expose students to mature entrepreneurial ecosystems.
- Encourage peer collaboration and team formation during undergraduate years.
- Recognize that location effects may differ in emerging markets compared to developed ones.

**CONCLUSION:** Universities in emerging markets play a critical role in bridging the gap between entrepreneurial intention and action. By fostering extracurricular engagement,

international exposure, and peer networks, they can accelerate the creation of successful startups and strengthen local entrepreneurial ecosystems.

**Article Title:** Startup Ecosystem in India: The growth and rise of Startups in the recent scenario

**Source:** Ray, P. (2024). Startup ecosystem in India: The growth and rise of startups in the recent scenario. *SMS Journal of Entrepreneurship & Innovation*, 10(2), 81–92. <https://doi.org/10.21844/smsjei.v10i02.30008>

**OBJECTIVE:** The study aims to provide a comprehensive understanding of the startup ecosystem in India by examining its structure, stakeholders, and dynamics. It seeks to analyse the trend and growth of Indian startups in the current scenario, highlighting how they have evolved over recent years. Furthermore, the research intends to identify the key reasons behind the rapid rise of startups in the country, including financial support, government initiatives, innovation, and the role of young entrepreneurs. By exploring these aspects, the study also considers the aftereffects of this growth, such as job creation, economic development, and India's increasing competitiveness in the global startup landscape.

#### **KEY FINDINGS:**

1. Improved Global Ranking – India's position in the Global Startup Ecosystem Index improved from 37th (2016–17) to 21st (2022–23).
2. Rapid Growth in Startups – Recognised startups grew from just 452 in 2015–16 to 34,779 in 2022–23, showing exponential expansion.
3. Regional Growth – States like West Bengal also witnessed significant growth, from 8 startups in 2015–16 to 1,170 in 2022–23.
4. Funding Support – Venture capitalists and angel investors played a crucial role, with funding peaking at USD 38 billion in 2020–21.
5. Government Initiatives – Schemes like Startup India Initiative, Seed Fund Scheme, and Atal Innovation Mission provided strong policy support.

6. Innovation Index Improvement – India's Global Innovation Index ranking improved from 76 (2013–14) to 40 (2022–23), reflecting stronger innovation culture.
7. Rise of Incubators & Accelerators – The number of incubators/accelerators increased from 80 (2013–14) to 794 (2022–23), strengthening support infrastructure.
8. Job Creation – Startups created 390,512 jobs by 2022–23, compared to only 10 jobs in 2015–16, highlighting their role in tackling unemployment.

**CONCLUSION:** The study concludes that India's startup ecosystem is steadily rising and will continue to expand in the future. With strong government support, increasing innovation, and growing investor interest, startups are becoming a critical driver of economic growth and job creation. The ecosystem is evolving to compete globally, and startups are expected to play a vital role in solving unemployment and strengthening India's economy.

**Article Title:** Technological Transformation and the Role of Frugal Innovations in Entrepreneurship Development in India

**Source:** Khadria, B., & Mishra, R. (2023). Technological transformation and the role of frugal innovations in entrepreneurship development in India. *The Journal of Entrepreneurship*, 32(2S), 27S–46S. <https://doi.org/10.1177/09713557231201116>

**OBJECTIVE:** The study aims to explore the relationship between technological transformation, frugal innovations (FIs), and entrepreneurship development in India. It seeks to understand how frugal innovations—often referred to as *Jugaad*—contribute to sustainability, affordability, and accessibility in resource-constrained environments. The research also examines India's potential as a lead market for frugal innovations, analyzing their role in socio-economic sectors such as healthcare, education, and agriculture. By applying the lead market theory, the study intends to highlight India's influence on the global discourse of appropriate technology and its ability to foster entrepreneurship that addresses grassroots needs while promoting sustainable development.

## KEY FINDINGS:

1. India as a Lead Market – India has emerged as a lead market for frugal innovations, with examples like Tata Nano, Jaipur Foot, and Mohalla Clinics demonstrating cost-effective solutions for mass adoption.
2. Sectoral Impact – Frugal innovations have significantly influenced healthcare (portable ECG devices, low-cost prosthetics), education (Foldscope, happiness curriculum), and agriculture (Husk Power Systems, Marut Drones).
3. Global Recognition – India contributes the highest number of frugal innovation cases globally, positioning itself alongside China, Brazil, and Kenya in driving resource-efficient solutions.
4. Technological Transformation – India's journey from indigenous technology post-independence to IT-driven liberalisation in the 1990s has created fertile ground for innovation and entrepreneurship.
5. Government Support – Initiatives like Startup India, Atal Innovation Mission, and Science & Technology policies have strengthened the ecosystem for frugal innovations.
6. Jugaad vs. Structured Innovation – While Jugaad provides quick, low-cost solutions, it lacks durability and systematic R&D, making it complementary but not a substitute for structured innovation.
7. Social Welfare Orientation – Frugal innovations prioritize affordability and accessibility, addressing the needs of marginalized communities and contributing to inclusive development.
8. Global Innovation Index – India's improved ranking (40th in 2022) reflects its growing innovation capacity and strengthens its position in the global innovation landscape.

**CONCLUSION:** The study concludes that India's technological transformation, combined with frugal innovations, has positioned the country as a global hub for resource-efficient

entrepreneurship. Frugal innovations have proven to be powerful tools in addressing grassroots challenges, creating affordable solutions, and promoting sustainability across socio-economic sectors. While Jugaad innovations showcase India's ingenuity, structured approaches are necessary to ensure long-term durability and scalability. With strong government initiatives, rising innovation capacity, and a supportive entrepreneurial ecosystem, India is poised to lead globally in frugal innovation, contributing significantly to sustainable development and inclusive economic growth.

**Pictures of the Sessions:**

## **INDUSTRY VISIT REPORT**

**Industry visited:** IIT, Indore

**Date:** 12<sup>th</sup> Dec 2025

**Time:** 9:30 A.M. to 12 Noon

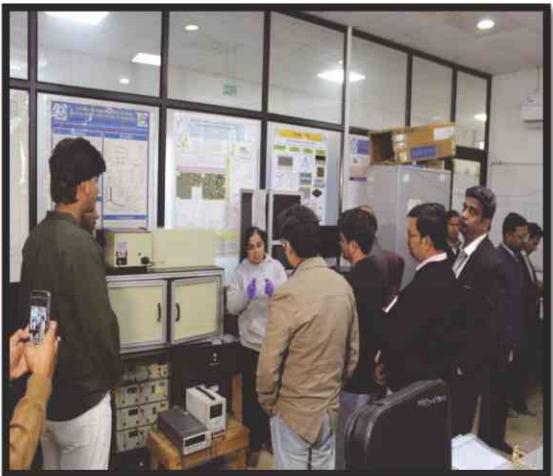

**Location:** Indore

**Summary of the Visit:** On Day V of the FDP, participants visited to Sophisticated Instrumentation Centre of IIT, Indore in the first session. Prof. Shaibal, Mukherjee and his team acquainted the participants with their 'AI enabled smart soil health monitor project'. The participants saw the Chemical Vapor Deposition Machine used to prepare the silicon-based sensor material preparation. The software connected with the machine maintains the temperature and prepares the basic material required for sensors. The machine prepares and maintains certain environment to mix the material uniformly.

Spin coating machines are used to coat material uniformly on the device. Ultra-sonication method to clean silicon particles produces ultrasonic waves and cleans dust particles. Acetone is used to clean the dust particle with dry nitrogen. Hybrid Nanodevice Research Lab also has Dual Iron Beam Spurting machine, DIBS where Silicon substance is loaded in a machine, vacuum is created through a pump to clean the substance. Fume hold machines are used to clean the accessories used in the processes. It discards the harmful fumes as well just like a kitchen chimney system. The team demonstrated the prototype of the sensor in soil outside the lab. The results are produced every 15 sec. and the sensor calibrates it on the device connected to it.

### **Pictures of the Session:**

## VALEDICTORY SESSION

The **Valedictory Session (13 December 2025)** marked the successful conclusion of the one-week Offline AICTE-ATAL Faculty Development Programme on “Promoting Entrepreneurship and Advancing the Startup Ecosystem within Academia: Empowering Educators,” organized by IPS Academy, Institute of Business Management & Research, Indore (M.P.) from 08–13 December 2025.

The FDP featured expert sessions by eminent academicians and industry leaders: **Prof. Shaibal Mukherjee (IIT Indore)** on *Project-Based Learning in Entrepreneurship and Entrepreneurship through Research, Innovation and Best Practices*; **Dr. Atul Bharat**, Group Director (CDC), Acropolis Group of Institutions, Indore, on *Integrating Entrepreneurship in Curriculum*; **Mr. Tanutejas Saraswat** on *Incubators and Accelerators in Academia*; **Mr. Pushpendra Agrawal**, Founder, Walkover Web Solutions Ltd., on *Creating Entrepreneurial Culture in Academia*; **Prof. Dr. A. Thillai Rajan (IIT Madras)** on *Building Industry-Academia Partnerships*; **Prof. Dr. G. S. Murthy (IIT Indore)** on *Indian Knowledge Systems and NEP*; **Mr. Mohit Jain**, Co-founder & CEO, Kimirica Hunter International LLP, on *Overview of Entrepreneurship*; and **Mr. Vipin Sharma**, Entrepreneur from Dubai, on *Startup Ecosystem and Funding*. Participants also visited the **Sophisticated Instrumentation Centre, IIT Indore**, gaining exposure to innovation and startup ecosystems within academia. The institution expressed sincere gratitude to the **AICTE ATAL Academy** for its continued support and trust in making the FDP impactful and transformative.

Our heartfelt thanks and appreciation to **Dr. Vivek Singh Kushwaha, Director, IPS Academy, Institute of Business Management and Research, Indore**, for his unwavering support and delivering the Valedictory address. He reflected on participants’ learnings, emphasized mindset alignment, market-oriented teaching through current affairs, and the faculty’s role as facilitators. He concluded by highlighting **John Mullin’s Seven Domain Model** for assessing business feasibility and scalability. The ceremony concluded with **participant feedback, FDP Report Presentation by Dr. Pallabi Mukherjee**, and **Concluding Remarks by Dr. Ritu Mishra**, effectively capturing the outcomes and impact of the programme.

## Feedback of Resource Person

 Thillai Rajan A  
to me, Director, RITU ▾

Wed, Dec 17, 10:14 PM (3 days ago)   

Dear Prof. Pallabi,

Thanks for your email and kind words. I enjoyed being a part of the program and thanks for giving the opportunity to be a part of it. I trust the program went well. I also acknowledge the receipt of honorarium transferred to my account.

Merry Christmas and New Year wishes in advance to your team and family

Warm personal regards

## Feedback of Participant

 ruchi mantri  
to me ▾

Fri, Dec 19, 4:20 PM (23 hours ago)   

ATAL FDP Feedback  

Respected Ma'am,

I wanted to express my sincere gratitude for the opportunity to participate in the ATAL FDP program. The program was spot on with AICTE-ATAL's objectives, focusing on building educators' capacity in entrepreneurship and innovation. The blend of case studies, interactive sessions, and hands-on training equipped me with practical tools and frameworks to integrate entrepreneurial thinking into my academic work.

The activity-based approach using SCAMPER, SLACK, and Business Model techniques was super helpful in applying concepts to real-world scenarios and classrooms. Overall, the program significantly boosted my understanding of entrepreneurship and the startup ecosystem in academia.

Thanks again to the organizers and coordinators for a well-structured and insightful program!

Best regards,  
Dr. Ruchi Mantri
